See citation^[1].

Support for styled alerts

build passing

Note

Useful background information and context.

Tip

Helpful advice for best practices.

Important

Key information users need to know.

Warning

Warnings about potential pitfalls or issues.

Caution

Critical warnings regarding potential data loss or breakages.

Support for latex

$$\frac{\partial L}{\partial w} = \sum_{i=1}^n (y_i - \hat{y}_i) x_i$$

Inline math also works: $E = mc^2$ and display form:

$$\int_0^1 x^2, dx = \frac{1}{3}$$

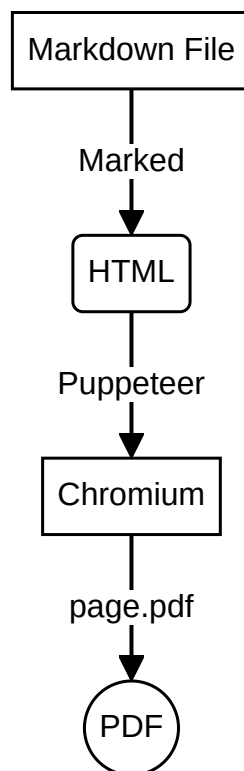

Support for emoji

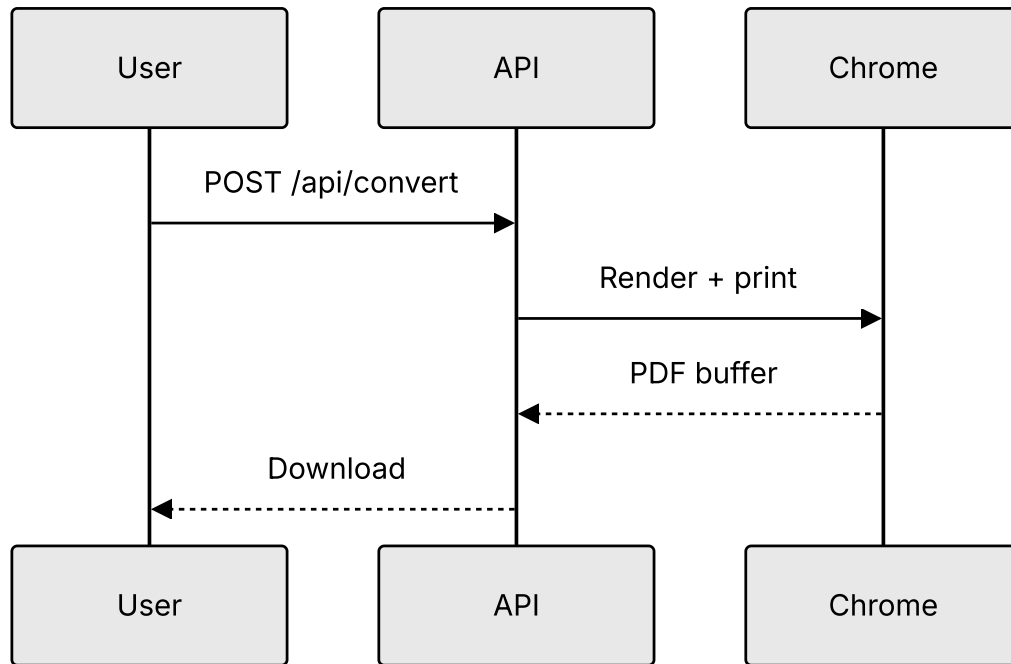

Status icons in prose:  Done ·  Pending ·  Failed ·  Ship it

Reaction row:      

Team notes:  Draft ·  Bug ·  Feature ·  Security ·  Release

Support for mermaid

Support for slides

Slide 1 — Overview

Compile Markdown to a print-ready PDF with GFM, Mermaid, and LaTeX.

Slide 2 — Diagrams

Use `mermaid` fences for flowcharts and sequence diagrams.

Slide 3 — Math & HTML

KaTeX equations and embedded HTML5 tags are styled for paper.

HTML support for these elements

▼ Click to expand extra details

Hidden accordion content is forced open in the PDF so it prints.

Keyboard shortcuts: press `Ctrl` + `C` to copy.

Text styling: H_2O , $E=mc^2$, highlighted, inserted, ~~deleted~~, and HTML.

Also sample output, x , *Source Title*, and fine print.

480 × 160
